

## Other Services

J4S also offers horse rehabilitation services.

Do you have a horse that is under done or just not putting on condition? Do you have a horse that needs post veterinarian care but you don't have either the experience or the facilities to provide the necessary day to day care?

We do!

Too many times we have seen horses that are under done, weak and basically in need of our specialised help. We offer a professional answer to all of your worries. Rest easy with the peace of mind J4S Equine Nursery can give you.

# J4S Equine Nursery

## The Nursery

At J4S Equine Nursery we have been foaling and imprinting foals since 1995. Our foals from birth are human friendly and easily educated.

At J4S we offer safe, secure and individual foaling yards. Foal alarm systems to ensure our experienced staff supervision, daily feeding as required and one of the best equine vets in the area on call.

Every mare and foal is looked after as if they were our own.

If you have a maiden mare, your going away when your foal is due or simply need peace of mind that your foal will be delivered under supervision and in a safe environment, why not ring J4S Equine Nursery and have a chat to us about our well established nursery.

## Mare & Foal Care & Imprinting

J4S Equine Nursery has expanded to include outside mares for foaling down and imprinting, in 2004 we saw the births of a beautiful Quarter horse colt and a stunning part bred Arab filly to name only a couple. Mares are given a balanced diet, safe and secure foaling yards, ongoing supervision, a paddock with a sloping hill to build strong legs.

Foaling is the best time of the year at J4S Equine Nursery.

The imprinting process begins as soon as the foal is born without interfering with the mare foal bonding. No force is ever used. We can quickly and effectively teach foals in their first day or two of life, certain and vital traits, which will stay with them a life time. Our Goals for your foal are bonding with humans, desensitization to certain stimuli, sensitization to other stimuli, and to easily except human interaction. This is exactly what can and will occur when we work with a foal from birth.

## Sales Preparation

J4S Equine Nursery have a professional team that handles the sale preparation and take pride in turning out outstanding yearlings.

From grooming, individual feeding and exercise plans, each horse is looked after in a manner second to none.

This can be seen by viewing our own yearlings on our web page [www.joncris.com.au](http://www.joncris.com.au) The yearlings are taught to stand up , to parade, and to have manners.

We offer individual stables, day yards, and everything you would expect from a professional business.

Give us a call or drop us an email. [debbie@joncris.com.au](mailto:debbie@joncris.com.au)
